

Let's Go Robotics, Incorporated

For Sale: Hudson PlateCrane XL

The PlateCrane XL manufactured by the Hudson Control Group is a cylindrical robotic arm that automates laboratory procedures. This product interfaces with any instrument that utilizes the MicroPlate format and is controlled by a simple command set through RS-232 serial communication.

This unit is in excellent operational and like-new cosmetic condition. Total Control PlateCrane software and a 30-day warranty full factory included. *Optional: Overlord Control Software; please contact us for a quote. Tel: (760) 438 – 0210*

Key Benefits:

- Add capacity to a single instrument to increase "walk away" time.
- Link more than one instrument together to further automate a process or assay.
- Implement a cost effective alternative to linear track and stationary articulated robotic arms.
- Plates with lids can be moved to and from stacks, and the lid can be automatically removed from the active plate.
- Works with 96, 384, 1536-well MicroPlates, deep well plates, plates with lids, and tip racks.

Specs:

- 2 Degrees of Motion: Z-Axis(Up/Down) and Rotary
- Maximum Capacity of standard MicroPlates with 12 MicroStacks: ~330
- Communication: Serial Port RS-232.
- Vertical Reach: 21.25"
- Horizontal Reach: 16"

Item is located in Carlsbad CA and is available for your inspection and demonstration.
