For Sale: Zymark Twister

The Zymark Twister™ Universal Microplate Handler offers a simple solution for automating the movement of microplates to and from a microplate reader, washer, or other microplate-processing instrument. With a capacity of 100 microplates, the design of the original Twister makes it ideally suited as a dedicated autoloader to a wide variety of scientific instruments. This unit includes 5 Microstack racks; 2 attached to the main unit and 3 attached to the capacity extension attachment on the back.

This unit is in excellent operational and cosmetic condition. Zymark Twister Handler software and 30-Day full factory warranty included. *Optional: Overlord Control Software; please contact us for a quote. Tel: (760) 438 – 0210*

Key Benefits:

- Automates the loading of plates into various scientific instruments, providing walk-away time for the end user.
- Handles Standard Microplates & Deepwells - Portrait or Landscape Format.
- Utilizes Removable Stacks.
- Fits on Standard Laboratory Bench Tops.
- Extended Capacity.
- RS 232 Communication.

Item is located in Carlsbad CA and is available for your inspection and demonstration.
